

# Service Distribution Unit

DESIGN . MANUFACTURE . INSTALL . MAINTAIN

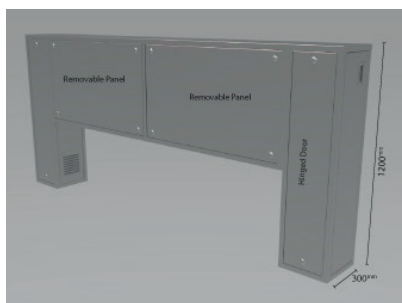

# Spec Sheet | SDU (Service Distribution Unit)

The CK Direct range of Service Distribution Units provides off the shelf components affording a cost effective way of distributing services to commercial cooking applications. Our system is totally modular in its construction and is expandable to facilitate any cooking 'line up'. Pre-assembled off site, the unit eliminates the co-ordination of other trades, allowing a single point of connection for final connections of service.

## Developed for use in commercial kitchens

- Constructed of 304/430 grade stainless steel
- Custom made to suit each application
- Available as either wall or island types
- All panels are fully removable
- Fully accessible for easy cleaning and maintenance
- Dedicated service risers with hinged doors
- Can be supplied with or without integral services
- Modular expandable design and construction

Model No.	Width (mm)	Depth (mm)	Height (mm)	Riser height	Price (£)
